

To whom it may concern:

I can recommend Artist Jeroen Van Hoorebeke for admission to your company. As his Mentor and Lead artist for 4 months, I have seen Jeroen developing into a professional artist for our projects within a month's time.

He finished various artwork within the given time, Jeroen is genuinely all-rounded. He produces character, environmental, props and textures. Although he really exceeds as an artist in the field of character creation.

On the interpersonal side, Jeroen has excellent written and verbal communication skills. He was getting along very well with the staff that gave him supervision, as well as with other colleagues.

In closing, as detailed above, based on my working experience with Jeroen, I can recommend Jeroen to you for an artist position.
